

Renewable Energy Rebate for Photovoltaics (RERP):

- Incentive amount will be \$1.80/AC Watt
- Limited to 10 kW for residential
- Array cannot exceed 120% of customer load

RECHARGE COLORADO Renewable Energy Rebates

- **Residential Solar Hot Water** – Up to \$3,000
- **Residential Wind** - \$1.25/watt up to 3kW up to \$3,750

RECHARGE COLORADO Energy Efficiency Rebates

- **Dishwasher** - **\$50**
- **Refrigerator** - **\$50** without recycling;
\$100 with recycling proof
- **Boiler** - **\$250**
- **Furnace** - **\$250**
- **Water Heater** - **\$50**
- **Duct Sealing** – 40% of job cost, up to **\$100**
- **Insulation and Air Sealing** – 40% of job cost, up to **\$200**

Please visit www.rechargecolorado.com for additional rebate requirements and application process.

ECO Team (Air Conditioning Load Cycling) Program

- CSU adjusts residential (E1R) and small commercial customers' (E1C) central air conditioning thermostats during periods of high demand for electric power.
- Program is limited to owner occupied premises with central air conditioning.
- Customers get a one-time \$25 credit on their utilities bill upon successful installation of thermostat
- Use of a \$300 advanced technology thermostat with the capability to control cooling systems from any internet connection

Renewable Energy Certificates (REC)

- RECs are the property rights to the environmental benefits from generating electricity from renewable energy sources, such as solar, wind, geothermal, biomass or hydroelectricity.
- One REC results from 1,000 kWh of electric energy generated from a renewable source. One REC = 1,000 kWh.
- The cost for each 100 kWh block of RECs is **\$0.34**.

CLOTHES WASHER Rebate

For top performance, premium features, and energy savings, look for energy-efficient clothes washers, refrigerators, dishwashers, room air conditioners and dehumidifiers that have earned the ENERGY STAR. This mark may appear on the appliance, the packaging or the [EnergyGuide label](#). **\$75** rebate (review list of qualified washers at www.csu.org)

WATERSENSE TOILET Rebate

By replacing older, existing toilets with WaterSense labeled models, you can save 6,900 gallons or more each year. EPA estimates that a family of four that replaces its home's older toilets with WaterSense labeled models will, on average, save more than \$90 per year in reduced water utility bills, and \$2,000 over the lifetime of the toilets. **\$75** rebate (review list of qualified toilets at www.csu.org)

IRRIGATION EQUIPMENT Rebate

Irrigation equipment rebates are offered to help improve the efficiency of irrigation systems. Used properly, this equipment can reduce landscape water use from 5 to 20% or more. Rebate **\$'s vary** (review list of qualified equipment at www.csu.org)

WINDOW Rebate

Single Family Residence Window(s)

- U-factor of $\leq .30$ with ANY SHGC
OR
 - U-factor of $.31$ with a SHGC of $\geq .35$
OR
 - U-factor of $.32$ with a SHGC of $\geq .40$
- Rebate amount is **\$4.67** per square foot up to \$200

Small MULTI-Family Residence Window(s) (3 stories or less)

- U-factor of $\leq .30$ with ANY SHGC
OR
 - U-factor of $.31$ with a SHGC of $\geq .35$
OR
 - U-factor of $.32$ with a SHGC of $\geq .40$
- Rebate amount is **\$4.67** per square foot up to \$12,000

Home Energy Audit (FREE through Energy Depot – www.csu.org)

Before starting a home efficiency project, it's best to know where to start. We offer a free program to help identify trouble spots in the customers' home and improve its energy efficiency.

The personalized Energy Depot profile includes information to help outline the customers use and includes a breakdown of how they can cut back on the habits that cost them the most money. The service is free and only takes about 15-20 minutes to complete.

To generate a profile:

- Visit energydepot.com/cosres.
- Enter at least one month of utility bill information from utility records. Entering the last 12 months provides a more accurate assessment. (If customer does not have information from previous months they can obtain by calling 448-4800.)
- Answer a series of questions about the home's energy consumption.

The profile is saved so it can be updated or reviewed in the future.

Home Efficiency Assistance Program (HEAP)

HEAP is a partnership between CSU and the Energy Resource Center providing low-income residential customers with FREE energy and water audits and retrofits. Qualifying customers are eligible for installation of compact florescent lamps, insulation, weather stripping, new furnace and more.

Please visit www.csu.org
for detailed program
information.
