

RESIDENTIAL REBATES

Whether you're buying a new home, remodeling or just trying to reduce your monthly utilities bill, we are here to help with money-saving rebates on energy efficient products. Plus, we have free tools at csu.org that can help measure and track your daily use.

Save with free online efficiency tools

- Our Home Energy Saver tool allows you to input information about your home and appliances and get suggestions to make your home more energy efficient.
- The My Usage tool tracks your electricity, natural gas and water use.

By knowing how much you use, you can make decisions on ways to reduce your consumption and your bill.

Air sealing and insulation

Air leaks waste energy and increase your utility costs. A well-sealed home and duct work, coupled with the right amount of insulation, can make a difference.

Rebate amounts:

- **Attic insulation and air sealing:** 40 percent of job cost, up to \$200.
- **Exterior wall insulation:** 40 percent of job cost, up to \$200.

Energy efficient appliances

When replacing your appliances, look for energy-efficient models with an ENERGY STAR® label. ENERGY STAR certified appliances help customers save money by reducing energy use without sacrificing performance.

Rebate amounts:

- **Electric dryer:** \$50 rebate.
- **Natural gas furnace:** \$250 rebate.
- **Natural gas water heater:** \$50 rebate.

Smart thermostat

Manage your home's heating and cooling costs with a smart thermostat. Using advanced technology, a smart thermostat controls and monitors your home's comfort while optimizing settings to reduce energy costs. The remote capabilities and intuitive interface make the smart thermostat simple to use, saving energy and money whether you're home or away.

Rebate amount:

- **ENERGY STAR-certified smart thermostat:** \$50 rebate.

Refrigerator and freezer recycling

Do something cool for the climate and recycle your old, inefficient refrigerator or freezer, ensuring that refrigerants, oils and other compounds are properly removed and reclaimed.

\$50 rebate for units that meet the following requirements:

- Capable of cooling and freezing.
- At least 10 to 32 cubic feet.
- Must be empty and accessible for removal.
- Recycled by Appliance Recycling Centers of America.
- Call 1-888-540-5931 to schedule your pick up.

Renewable energy

Renewable energy helps protect the environment, diversifies our energy supply, creates energy independence and reduces our summer peak capacity requirements.

- Photovoltaics, or **solar electric panels**, convert the energy of the sun into useful electricity. The rebate rate is \$0.20 per AC watt. Arrays cannot exceed 120 percent of the customer's use, or 10kW AC.

In-store discounts: LEDs and showerheads

We have partnered with local retailers to bring you immediate discounts on ENERGY STAR certified LED light bulbs and WaterSense showerheads. Look for our logo in stores.

- **ENERGY STAR LEDs** use up to 90 percent less energy and last up to 25 times longer than an incandescent bulb.
- Save up to approximately \$85 in water and energy costs per year by installing a **WaterSense labeled showerhead**. You can also exchange, at no cost to you, old showerheads for WaterSense models at our CEC.

Ask about a free device (while supplies last) to attach to your new showerhead that allows you to effortlessly save hot water and energy.

Rebate amounts:

- **Sprinkler heads with check valves or pressure-reducing stems:** up to \$5 each, minimum of 5, limit of 80.
- **Rotating matched precipitation spray nozzle:** up to \$4 each, minimum of 5, limit of 80.

Irrigation equipment

Landscape watering makes up more than a third of residential water use. Used properly, efficient irrigation equipment can reduce landscape water use from 5 to 20 percent or more. Customers must purchase and install qualifying irrigation equipment.

Rebate amounts:

- **WaterSense® certified smart irrigation controller:** up to \$50.
- **Wired rain sensor shut-off device:** up to \$25.
- **Wireless rain sensor shut-off device:** up to \$50.

Conservation & Environmental Center (CEC)

Visit our CEC to learn how to use energy and water wisely by touring our Water Wise Demonstration Garden, using our extensive resource library or trying out one of our hands-on displays, including solar power, LED lighting, low-flow indoor and outdoor water equipment, holiday lights and more.

**Open Monday through Friday
8 a.m. to 5 p.m., except holidays
2855 Mesa Road**
