

Colorado Springs Utilities

It's how we're all connected

Dear Net Metering Customer,

In compliance with the Colorado Code of Regulations 4 CCR 723-3, Sections 3650-3699, Colorado Springs Utilities allows customers the ability to produce their own power through renewable energy sources up to 120% of their usage, with the excess kilowatt-hours carried forward from month to month and credited at a ratio of 1:1 against the customer's retail kilowatt hour consumption in subsequent months. Compensation is also paid to customers for any accrued excess kilowatt-hour credits at the end of each calendar year at the Renewable Energy Net Metering Tariff rate. See Tariff document on www.csu.org for kWh value. Revisions to the Colorado Code of Regulations have added the following regarding the calendar year payout:

3664. Net Metering.

... the customer may make a one-time election, in writing, on or before the end of a calendar year, to request that the excess kilowatt-hours be carried forward as a credit from month to month indefinitely until the customer terminates service with the investor owned QRU, at which time no payment shall be required from the investor owned QRU for any remaining excess kilowatt hour credits supplied by the customer.

This revision is not a mandate for municipalities, but Colorado Springs Utilities would like to offer this option to its Net Metering customers. Please email* this form back to Renewables@csu.org if you would like to make this election:

Yes, I would like to request that the excess kilowatt-hours I generate each year be carried forward as a credit from month to month indefinitely until I terminate service with Colorado Springs Utilities. I understand that in electing this option, Colorado Springs Utilities will not be required to make payment for any remaining excess kilowatt hour credits when I terminate service.

If you are unable to provide an electronic signature, please email Renewables@csu.org for processing options. If you prefer to continue with the calendar-year true-up, no action is required. Should you have any questions, please do not hesitate to get in contact.
