

## MEMORANDUM

**TO:** Clear Spring Ranch Coal Combustion Residuals Landfill Operating Record

**From:** Colorado Springs Utilities Environmental Services – Technical Services

**Cc:** Clear Spring Ranch Coal Combustion Residuals Landfill Internet Site

**Date:** February 23, 2022

**Subject:** Groundwater Assessment Monitoring - Statistically Significant Level Detection Notification

---

As required by §257.95(g), §257.105(h)(8) and §257.107(h)(6) of EPA's CCR Rule, Colorado Springs Utilities is placing this notification in the Clear Spring Ranch Coal Combustion Residuals Landfill Operating Record that selenium has been detected in groundwater at a statistically significant level above its groundwater protection standard. This notification will also be placed on the Landfill's Internet Site within 30 days.
