

BUSINESS RATE SHEET

Dependable service, fair prices, and more choices - it all adds up to better value for our customers. The current prices for the most common schedules available to business customers are shown below - Customer whose Maximum Demand equals or exceeds 10,000 kW, see Electric Large Load (ELL) Rate Sheet for additional information. Detailed terms and conditions for all prices and schedules are provided in our tariffs. To view our tariffs and rules and regulations, visit us at www.csu.org or call us at (719) 448-4800.

You may qualify for more than one schedule. Rate option selection is your responsibility. Upon request, we will evaluate your utilities use to determine your qualifications, including which schedule would be most beneficial to you. A requested change to another applicable schedule will be applied only to services used after your request goes into effect.

Electric Service Rate Description	Commercial Small < 10 kW			Commercial Medium 10 kW Min		Commercial Large 50 kW Min

Time-of-Day Option, On-Peak and Off-Peak Period Definitions

On-Peak Periods: 5 p.m. to 9 p.m., Monday through Friday.

Off-Peak Saver Periods (Applicable to Energy Wise Plus Options): 9 a.m. to 1 p.m., Sunday through Saturday including holidays.

Off-Peak Periods : All other hours not included in On-Peak Periods and Off-Peak Saver periods for Energy Wise Plus Options. Off-Peak Demand Charges are based on the calculation of the On-Peak Billing Demand being subtracted from the higher of either the greatest 15-minute load during Off-Peak hours in the billing period, adjusted for power factor, or 68% of the maximum demand during the previous 12 billing periods (Minimum Demand).

Critical Peak Events: Applicable to Customers receiving service under an Energy Wise Plus Time-of-Day Option, Critical Peak events may be called by Utilities during On-Peak hours. Critical Peak events may range from one to four hours and are limited to 15 events per year. Utilities will generally announce events 24 hours in advance; however, in the event of system emergencies announcements may occur the same day as the event. Customers will be charged for all energy used during Critical Peak events including the Access and Facilities On-Peak, per kWh, the Critical Peak Period, per kWh, the ECA On-Peak, per kWh, and the ECC, per kWh charges.
