Industrial Service – Large Load

Applicable to industrial customers with loads greater than 10 MW. Customers requesting future service are required to complete an application and pay applicable large load study fees¹. Pursuant to Utilities Rules and Regulations, Utilities may execute Economic Development Special Contracts with selected customers receiving service under this rate schedule.

Service considerations include:

- Minimum 10-year initial contract period. Contract specifies load requirements and other terms and conditions.
- Retail service at transmission or distribution voltage.
 - a. Transmission voltage (customer owns, maintains, operates substation).
 - b. Distribution voltage (customer pays substation facilities fee).
 - c. Customer responsible for cost of transmission and distribution extensions or modifications required to provide service.
- Subject to Southwest Power Pool Regional Transmission Organization (SPP RTO) tariff provisions. Utilities will pass through any cost incurred by SPP RTO related to serving the customer's load.
- Interim service through market purchased power agreements (PPA) and/or capacity purchase agreements (CPA) until Utilities acquires adequate resources to serve the customer's load.

Bill components include:

Description	Industrial Service – Large Load (ELL)
Access and facilities, per day	\$8.9065
Demand Charge Secondary, per kW, per day (primary or transmission discounts may apply)	\$0.8593
System Support Charge, per kW, per day ²	\$0.0859
Resource Adequacy Charge, per kW, per day ²	\$0.4110
Purchased Energy Charge, per kWh ³	By contract
Purchased Capacity Charge, per kW, per day ³	By contract
Electric Cost Adjustment (ECA), per kWh	\$0.0263
Electric Capacity Charge (ECC), per kWh	\$0.0036

Minimum monthly bill based on highest of⁴:

- Monthly demand and energy, or
- 100% of contracted load and energy requirements, or
- 100% maximum prior 12-month demand and monthly energy

Customer is responsible for 10 years of minimum monthly bills regardless of usage or service.

Collateral requirement of cash or letter of credit equal to 36 months of estimated minimum monthly bills.

- After initial term, contract will automatically renew for additional 36 months unless customer provides notice to request termination.
- Late payment fee of 1.5% per month assessed on overdue balances.

¹ Large Load Study Fees and Advance payments are applicable pursuant to Utilities Rules and Regulations. Provisions or requests related to Regional Transmission Organization (RTO) tariffs or procedures and related cost may be applicable.

² Charges apply only during initial 10-year contract period.

³ The purchased Energy Charge or PPA and/or the purchased Capacity Charge or CPA cost will be passed through to customer in lieu of the ECA and ECC until Utilities has adequate resources to provide service under the ECA and ECC rates.

⁴ After initial 10-year agreement, minimum monthly bill is based on the higher of monthly demand and energy, or 68% percent of maximum prior 12-month demand and monthly energy.
